

CANopen®

EtherCAT®

Main features

- Power range from 50W to 1kW
- Integrated servo drive to control 2 or 3 axes
- 17bit, 20bit & 23bit Incremental or Absolute encoder
- Space saving, easy wiring, cost effective
- Common DC bus
- EtherCat
ED3M-0404AEA
- CANOpen
ED3M-101010AMA
ED3M-1010AMA

ED3M SERIES

Multi-Axis AC Servo Drive

A New generation of EtherCat and CANOpen Servo System

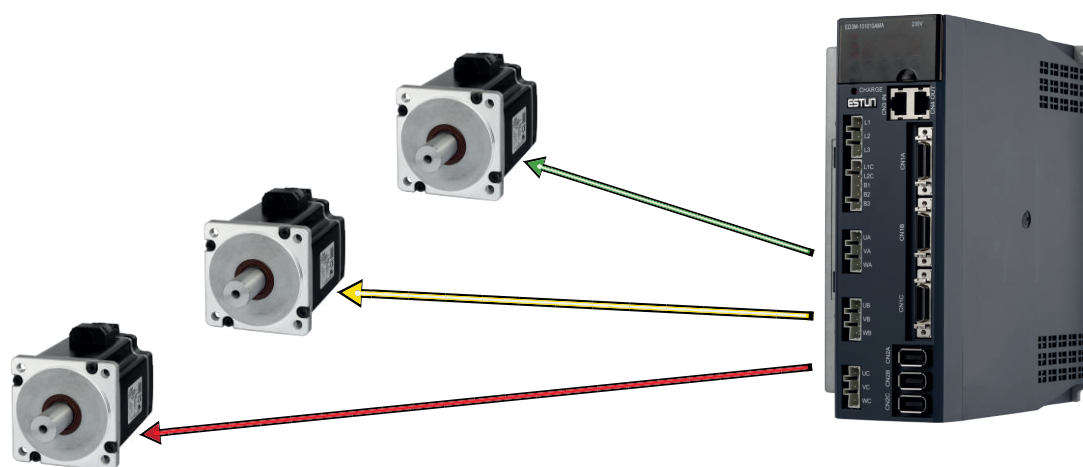

PRELIMINARY

ED3M - 0404AEA: 2 axis EtherCAT max 400W

ED3M - 1010AMA: 2 axis CANOpen max 1kW

ED3M - 101010AMA: 3 axis CANOpen max 1kW

- All products from 50W to 1kW estimated release to market after mid-2019
- The maximum power is referred to each individual axis
- All devices automatically recognize the 17, 20 and 23 bit encoders
